Protect NT schools

Hands off our independent Teacher Registration Board!

The Teacher Registration Board and the Northern Territory Board of Studies are integral to the work of Northern Territory teachers.

The NT Government has put forward legislation that undermines the independence and integrity of both boards.

The government's plan would remove union nominees, merge the boards into one and enable the Minister to hand-pick every board member (with no requirement for appointees to be practising teachers).

These changes will affect your profession and your work.

We have just days to respond. Don't just take it – take action!

Sign the IEU-QNT / AEU NT joint petition or email your local MLA and tell the government to abandon this attack on NT schools:
